

Special Fire Mitigation Presentation

On Wednesday, January 12, 2022 at 10:00 A.M. WLRMS will host a special presentation by the North Carolina Forest Service and Mountain Valleys Resource Conservation & Development, Inc. concerning wildfire risk in our area and upcoming 2022 community wildfire mitigation programs. You may attend the meeting in person in the WLRMS meeting room at 63 Village Lane, or attend and participate virtually by following the instructions below. The presentation will be approximately 40-45 minutes including a question and answer period. The WLRMS regular monthly work session will follow the presentation.

In 2021 a valuable program provided free home assessments, counseling for steps to take to reduce fire risk, and even partial reimbursement to landowners implementing wildfire mitigation on their property within 100 feet of their house such as: tree pruning, vegetation thinning and removal, and gutter/roof cleaning. We are eager to hear about what programs may be available to benefit our owners and our community in 2022.

The WLRMS Board of Directors conducts a public work session each month at which staff reports on monthly operations are presented and issues which require extended examination are reviewed prior to being placed on the agenda of a board meeting for action. Work sessions fall 10 days prior to a regularly scheduled board meeting, typically on the second Wednesday of the month. Residents are welcomed to attend work sessions and board meetings.

How to attend the work session virtually:

WLRMS January Work Session
Wed, Jan 12, 2022 10:00 AM - 12:00 PM (EST)

Please join my meeting from your computer, tablet or smartphone.
